Apply to: Data Engineering Intern position

Dear HR department,

I am writing to express my strong interest in the Data Engineering Internship position at VDT2024. As a highly motivated and detail-oriented individual with a passion for data analysis and machine learning, I am confident that I would make a valuable addition to your team.

Currently, I am pursuing my Bachelor Degree in Computer Engineering at HUST, where I have been able to develop a strong foundation in programming languages such as Python, R, and SQL. In addition, I have gained hands-on experience in data visualization tools such as Tableau, as well as machine learning frameworks like TensorFlow and PyTorch.

I am particularly drawn to Viettel because of its commitment to using data-driven insights to drive business decisions. I am excited about the opportunity to contribute to the company's success by leveraging my skills in data engineering and analysis.

I am confident that my passion for data engineering, combined with my strong analytical and problem-solving skills, make me an ideal candidate for this internship. I am eager to learn from the experienced team at Viettel and contribute to the company's success.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Yours sincerely,

Nguyen Thanh Ha
